

BOLD & BRiGHT

GWENDOLYN PLUMMER / ASSOCIATE EDITOR

WHO: For those who naturally stand out, show their colors, and make their voices heard.

WHAT: Bright, bold frames with exciting patterns and hyperactive shapes are perfect for summer—indoors or out.

WEAR: (Top to Bottom): From **Etnia Barcelona's** David Bowie Tribute collection, Ziggy Stardust is as bright and bold as Bowie himself, featuring a pattern designed to pay homage to Bowie's iconic shoulder-padded "spacesuit," which he wore on The Rise and Fall of Ziggy Stardust Tour. From **Safilo's kate spade new york**, Karleigh/S in this special Pride colorway allows wearers to be bold, show their true colors, and wear their heart on their temples. From **Marchon's** Marni, Bird's-Eye takes graphic color blocking to the next level by combining the trend with a shape that feels extroverted and exciting. Finally, from **L.A. Eyeworks**, Whirly Bird in the Merry Mix pattern is bold in every way, with a pattern and a shape that play against one another to create a sensational, curious, and uniquely bold look.

WHY: June marks the beginning of summer and Pride month—a perfect time to tap into your bold side, be yourself, and stand out from the crowd.
